Profile Summary

Backend Developer with 6 months of internship experience building scalable REST APIs and real-time applications using **Node.js**, **Express.js**, **MongoDB**, and **React.js**. Skilled in backend architecture, authentication, API optimization, and full-stack MERN development.

Technical Skills

Languages: JavaScript, Java, PHP, HTML/CSS, C++

Frontend: React.js, Redux Toolkit, Tailwind CSS, EJS

Backend: Node.js, Express.js, REST APIs, Socket.IO

Databases: MongoDB, Firebase, MySQL

Tools: Git, GitHub, Postman, VS Code, Render, Vercel, GitHub Actions

Core Concepts: DSA, OOPs, DBMS, Operating Systems, Networking

Experience

Node.js Developer Intern | Foxberry Technologies

Present

PREET.AI

- Built scalable backend APIs using **Node.js**, **Express.js**, **MongoDB**, improving enterprise workflow automation.
- Implemented real-time workflow tracking and live updates using **Socket.IO**.
- Integrated **BullMQ** for asynchronous background job processing and optimized API performance.
- Designed secure and modular **REST APIs** with authentication and scalable backend architecture.

MIS | School Management System | *Node.js, Express.js, MongoDB*

- Developed a scalable backend-driven MIS for managing students, staff, attendance, and academic records.
- Implemented secure authentication, modular APIs, and optimized MongoDB schemas for scalability.

ESR | Environment Status Report System | *Node.js, Express.js, MongoDB*

- Built an ESR platform for managing environmental reports and compliance-related records.
- Developed scalable backend APIs and structured database models for efficient data processing.

Projects

Habit Tracker Web App | [GitHub](#) | [View](#)

Node.js, Express, EJS, MongoDB

- Developed a responsive habit tracker with real-time progress monitoring and data persistence.
- Designed an interactive UI for intuitive habit visualization and improved user productivity.

ResumeForge-AI | [GitHub](#) | [View](#) | [Backend API](#) | *React.js, Node.js, Express.js, MongoDB, Gemini AI*

- Built an AI-powered interview preparation platform using **MERN Stack** and **Google Gemini AI**.
- Implemented JWT authentication, ATS scoring, resume analysis, and AI-generated interview reports.
- Deployed scalable production applications using **Vercel**, **Render**, and **MongoDB Atlas**.

API Polling | [GitHub](#) | *Node.js, Express, MongoDB*

- Built a RESTful Polling API using Node.js and Express for creating questions, adding options, and dynamic voting.
- Implemented full CRUD operations with real-time vote tracking and easy endpoint testing via Postman.

Dino Game | [GitHub](#) | [View](#) | *HTML, CSS, JS*

- Built a browser-based Dino Game with smooth animations, sound effects, scoring, and obstacle avoidance.
- Implemented persistent high-score tracking using LocalStorage to retain user progress across sessions.

Education

National Institute of Technology Hamirpur (Percentage: 70.2)

2022

B.Tech – Computer Science and Engineering

Hamirpur, H.P

Trainings & Certifications

Coding Ninjas

Full Stack Web Development

- **Java** — **DSA** — **Frontend Development** — **ReactJS** — **NodeJS** — **DBMS** — **Generative AI**
